DETAILED ACTION

1. Claims 1-7 are pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

Claims 1, 6 and 7 are rejected under 35 U.S.C. 102(e) as being anticipated by Srivastava et al U.S. Patent No. 6,061,676.

As per claim 1, Srivastava et al discloses recasting said expression into a form of one or more token pairs arranged sequentially in a string, each said token pair comprising an operator followed by an operand (col. 4 lines 51-54); reducing said strings in accordance with a set of predetermined simplifying rules (col. 4 lines 59-67); comparing the reduced strings by matching to detect equivalence of the two algebraic expressions (col. 3 lines 47-50).

Claim 7 corresponds to claim 1 and is rejected for the reason set forth in the rejection of claim 1.

Allowable Subject Matter

3. Claims 2-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
